Dear Robert:

Just a note to express my sincere appreciation and say thank you for the extremely well done job in our new office wiring and cabling. Your company's teamwork and response to our many challenges during our build-out were of extreme value for us and made our task much easier and reliable. Christopher Fries, the other team members and yourself, did a wonderful job of ensuring our project was on schedule and completed to our satisfaction. Your personal initiative and willingness to go that extra step and work with us over the course of many months, made it a successful and seamless install. Of the many concerns our department goes through in a task so enormous as that of moving over 100 employees to a new location, the wiring, cabling and housing of our servers and network were one of the things that we did not have to worry about.

It is rare to find a company with such professionalism and dedication as that which was demonstrated by TCS towards us. I will be more than happy to recommend TCS in the future to any business with wiring needs and as a company that goes the extra mile for their clients. I have no reservations in continuing to use TCS as our cabling company for future needs.

Best Regards,

Leilani Quiles
IT Director
