Mr. Erik Leonhardt
Total Cabling Solutions
15712 SW 41st Street
Davie, Florida 33331

To Mr. Leonhardt,

It was a great pleasure working with Total Cabling Solutions (TCS). From the time of the selection process to completion of the job, you and your company represented yourselves as top professional performers. Thus making the relocation of XM Satellite Radio R&D a smooth process, adding to a successful move of operations in less than 48 hours and ready for Business.

For reasons that the management of TCS was on site overseeing that quality was not sacrificed for quantity. This job entailed 1,680 network and communications cables all certified at job completion, raising the confidence level high that all connection points worked the first time. This made the company network and communication rooms a showcase and would make any IT professional envious.

I am delighted to have found a company that I can trust and can recommend without hesitation.

Sincerely,

Jeffrey Skirde
Senior Network Engineer
