Dear Robert,

I wanted to express a few words of thanks for the cabling job you did for us at 1210 South Pine Rd. in Plantation.

From the beginning there were many challenges to overcome in order to complete this project on time. From the union issues to the many change orders to the delays caused by other trades, you and your technicians persevered and delivered a quality product. I am extremely pleased and impressed with the neatness of the cable layout in each communications room. The Panduit angled patch panel system you recommended saves space and creates a very neat appearance.

Thank you and all of the people at your company that made this project a success.

Sincerely,
